Front End Developer (React / TanStack / Tailwind / Bun)

Description

We are looking for a skilled Frontend Developer to build fast, scalable, and user-friendly web applications for our SaaS products (POS, CRM, WhatsApp automation platforms).

You will work closely with product, backend, and design teams to create high-performance UI experiences used by thousands of businesses.

Responsibilities

- Develop modern, responsive web applications using **React.js**
- Work with **TanStack (React Query, Table, Router)** for state & data management
- Build clean UI using **Tailwind CSS**
- Optimize applications for speed and scalability
- Integrate APIs and manage asynchronous data flows
- Ensure cross-browser compatibility and mobile responsiveness
- Collaborate with backend & product teams to deliver features end-to-end
- Maintain code quality, performance, and best practices

Required Skills

- Strong experience in **React.js (Hooks, Functional Components)**
- Hands-on experience with **TanStack (React Query preferred)**
- Good knowledge of **Tailwind CSS**
- Experience with **REST APIs** and async handling
- Understanding of modern frontend build tools (**Bun / Vite / Webpack**)
- Strong problem-solving and debugging skills
- Knowledge of Git and version control

Good to Have

- Experience in SaaS / POS / CRM products
- Understanding of performance optimization techniques
- Familiarity with TypeScript
- Experience with real-time apps (WebSockets, etc.)

Qualifications

- Bachelor's degree in **Computer Science, IT, or related field** (or equivalent practical experience)
- 2-5 years of hands-on experience in **Frontend Development**
- Strong proficiency in **JavaScript (ES6+) & TypeScript**
- Solid experience with **React.js** and modern frontend architecture
- Experience working with **TanStack (React Query / Table / Router)**
- Good understanding of **HTML5, CSS3, and Tailwind CSS**
- Experience with modern build tools like **Bun, Vite, or Webpack**

Hiring organization

Invoay Software

Employment Type

Full-time

Industry

SaaS Software, POS Software, Beauty and Wellness

Job Location

Remote work from: India

Date posted

12 April 2026

- Knowledge of **API integration (REST / JSON)**
- Familiarity with **Git and version control systems**
- Understanding of **responsive design and cross-browser compatibility**

Job Benefits

What We Offer
